

MAYOR BOATRIGHT WILL TRY AGAIN TO PUT THROUGH APPOINTMENTS

Executive Absolutely Silent on Subject but Friends Say He Is not Discouraged by Council's Turn Down.

OPENS OFFICE THIS MORNING WITH CLERK

Council Is Called to Meet in Adjourned Session Monday Night; May Consider Nominations.

Mayor D. H. Boatright this afternoon is installing a desk in the city clerk's office in the city hall, and will make that his permanent office, with regular hours which he will announce later.

The mayor this morning announced that he would call the council to meet in adjourned session Monday night, under authority granted by the council at its initial meeting. It is Mayor Boatright's idea that the council should hold adjourned sessions during the first few weeks, or until the new officials and councilmen are thoroughly familiar with the various details of the city government. He would not say whether or not further appointments would be placed before the council.

The mayor this morning absolutely declined to discuss his publication the matter of his appointments and the council's attitude toward them, or to say what further steps he proposed to take toward pressing the appointments or securing confirmation. Friends of the mayor, however, are more communicative, and several men who are close to the executive believe it is known that he proposes to press not only the appointments made last Monday night, but others which he has in mind and to secure if possible a set of appointive officers who will be in complete harmony with him on all matters of administration.

It is said on what seems to be reliable authority that the city council will stand pat on its refusal to confirm the nominations made at the opening meeting of the new council, and that instead of four to four on the chief of police nomination, as was the case last Monday night, the council will stand six to two against confirmation.

Chicago, Illinois.

formation if Thomas's name is again proposed by the mayor. The same, it is said, will obtain on other nominations thus far made.

STOCKMEN EXPECT A FAVORABLE DECISION

State Corporation Commission Will Hand Down Decision on Stock Scales Matter Early in May.

Favorable decision on the petition to compel the Santa Fe railway to install scales which are important shipping points in this state is expected soon from the state corporation commission by the New Mexican Wool Growers' association. Hearing on the petition by the association, the granting of which will compel the railroad to equip the principal livestock shipping scales, was held in this city several weeks ago.

"We expect a decision the first part of May," said Charles Chadwick, secretary of the Wool Growers' association today, "as the briefs will be filed by both sides by May 5. The evidence submitted proved that the railroad's minimum weight charge for the stock deck car was 22,000 pounds and that the one was weighed when loading to divide the minimum weight charge of the car by the average weight of the sheep to be loaded to tell how many sheep to put in the car, thereby proving that a livestock scale is a part of the necessary equipment of a shipping point."

The shepherds also proved that the volume of business is sufficient to justify the claim for livestock scales.

In view of the evidence brought out in the case, the shepherds are jubilant, for they can see no reason why a verdict should be given against them."

AUTHORITY TO GO AHEAD WITH NEW BUILDINGS

Superintendent Perry Receives Telegraphic Orders to Proceed at School; Institute Organized Here.

Superintendent Rulien Perry of the Albuquerque Indian school yesterday received authority by telegraph to proceed at once with the construction of approximately \$20,000 worth of new buildings at the school for which work has been begun. The work will keep things moving at the school during the spring and summer. The brick work for the new buildings has been left to Edward Lemire. The carpenter work will be done by the Indian boys.

H. B. Pears, general inspector of Indian schools, with headquarters in Washington, visiting Albuquerque yesterday, said today Mr. Pears has just completed plans for a teachers' institute of Indian school teachers in New Mexico and Arizona, which will be held in Santa Fe during the summer school in June and July.

This is one of several institutes which will be held in various parts of the west and which will be attended by all the teachers employed in this branch of the service.

Beware of Ointments that Contain Mercury

Mercury will surely destroy the sense of touch and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufacturer by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

SAYS WEST TEXAS HAS HAD HARD SLEDDING

Albuquerque Business Man Back from Trip Through Eastern Part of State and the Panhandle Country.

C. H. Kapple, head of the Kapple Furniture company, has just returned from a month's trip through western Texas and eastern New Mexico.

"Conditions in the Pecos valley and

in eastern New Mexico generally are very good this spring," said Mr. Kapple this morning. "There are sections

of the plains country in which the dry farmers are having the usual shortage of water, but the irrigated sections are looking fine."

"There has been hard pretty hard sledding for several years past and the people over there seemed pretty well discouraged. In several places I found merchants who said that after five years of practically no rain, their business had been blocked for a month at a time by rains so heavy the people could not get in to trade, which is reversing the usual order of things with a vengeance."

We will also allow Ford owners a discount of 10% off on all Ford Tires and Tubes. New stock. The above special offer is made in order to reduce stock prior to moving.

QUICKEL AUTO AND SUPPLY CO.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to flush kidneys and neutralize irritating acids.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation in the neck of the bladder. After taking you will soon feel relief twice three times during the night. The sufferer is in constant dread the water passing sometimes with a scalding sensation and is very profuse; again there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take tablespoonfuls at a time before breakfast and continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs, which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant effective, lithia-water drink, which quickly relieves bladder trouble.

HALF A MILLION FORD AUTOMOBILES HAVE BEEN SOLD

Detroit, Mich., April 25.—More than a half million Fords have been built and sold to date. The five hundred thousand mark was passed early in the middle of April. The company's big Highland Park, Mich., factory was speeded up and completed automobiles were being turned out at the rate of more than eleven hundred a day as the half million milestone was left behind. This was but a continuation of the pace set in March, when for seven consecutive working days the daily production exceeded eleven hundred cars.

Since 1908 the growth of the company as indicated by the yearly car sales has been phenomenal. That year the sales totaled more than six thousand, the next year they jumped to more than twenty thousand, in 1910 they were more than nineteen thousand, in 1911 they exceeded thirty-seven thousand, in 1912 they were more than seventy-four thousand, and in 1913 they were in excess of one hundred eighty thousand.

And this year's sales are keeping up the pace. The Fords built before 1913, those built again so far this year, and the total of the sales for the six years given above combine to make a grand total of more than a half-million.

These half-million cars have been sold in every country of the globe where a motor car could possibly run. They may be found in the interior of darkest Africa, in the valleys of the Andes of South America, in Ceylon, on the Isle of Jolo, Philippines, and in the out-of-the-way places of the world.

And in most every land there are practically twice as many Fords as cars of any other single make.

It is generally agreed that the slogan "Every Third Car a Ford," is

practically true in all countries.

The name—Doan's—inspires confidence—Doan's Kidney Pills for kidney ills. Doan's ointment, for skin itching. Doan's Reputels for a mild laxative. Sold at all drug stores.

Hardware—J. Korber & Co.—Buggies. Gasoline Engines.
